

2016-2017 REMINI

Remini is an Israeli-designed program on a Facebook-like platform for parent communication, updates, and photos. It is very user friendly and super exciting! Remini is a secure application for the iPhone or android or from your PC (Google Chrome).

Through this app we will be able to share photos, newsletters and eventually be able to easily share forms, documents, and calendar events. Parents will be invited to join their child's private and secure virtual classroom.

Please complete this registration form below:

Child's Name: _____

Date of Birth: _____
